Cats?

Git?

A ginger and white cat is seen from the chest up, positioned behind a black plastic mesh fence. The cat's face is pressed against the mesh, and its pink tongue is extended outwards. The cat has orange fur on its head and ears, with white fur on its muzzle and chest. Its eyes are wide and yellow. The background consists of vertical wooden planks, suggesting an outdoor enclosure or fence. The text "Who Created it and Why?" is overlaid in white, bold, sans-serif font across the lower half of the image.

**Who Created it
and Why?**

Commands

HELP ME

git add -A

OBI WAN

lolcats now individually packaged

**git commit -m
“because cat”**

to help preserve lolness

A photograph showing a large, realistic-looking tiger statue on the left and a small, brown and white tabby cat on the right. Both the tiger and the cat have their mouths open in a similar 'yawn' or 'roar' expression. The text 'git clone URL' is superimposed in the center in a large, white, sans-serif font. The background is a plain, light-colored wall, and the floor is covered in a beige carpet. To the right of the cat, there are dark, patterned curtains.

git clone URL

git remote -v

LONG STORY... JUST PULL

A photograph of a tabby and white cat hanging upside down from the branches of a Christmas tree. The tree is decorated with warm white lights and a candy cane ornament. A framed picture is visible on the wall in the background.

**git pull origin
master**

A large, fluffy orange cat is captured mid-jump in a paved parking lot. The cat is standing on its hind legs, with its front paws extended forward. A thick plume of white smoke or dust is rising from the ground beneath its hind feet. In the background, there is a white garage, a chain-link fence, and some trees. The scene is brightly lit, suggesting daytime.

**git push origin
gh-pages**

**git checkout
master**

GitHub?

A close-up photograph of Grumpy Cat, a brown and white cat with a grumpy expression and blue eyes. The text "GitHub != Git" is overlaid in white, bold, sans-serif font across the upper portion of the cat's face.

GitHub != Git

Fork it

I'm a floating cat,

Pull Requests

Your argument is invalid.

I've got issues

DOG WANTS WAR...
